

Company: EASN-TIS

We are seeking motivated and collaborative individuals to contribute to the dissemination and communication activities, such as content creation for communication material (brochures, press releases, articles, newsletters), video editing, website & social media pages, of technology-oriented research projects (aviation & space domains).

RESPONSIBILITIES

- Become an active member of the Dissemination & Communication team, promoting technology-oriented projects and their results.
- Implement tailored communication and dissemination strategies.
- Translate complex content into strong and understandable messaging targeted to relevant audiences (in English).
- Content creation for printed and digital communication material, videos, projects' websites, and social media pages.
- Social media administration.
- Support in project management including administrative tasks, compiling reports and deliverables and curating content.

REQUIREMENTS

- Higher education degree (BSC, BA, BEng) [MSc or PhD will be considered a plus].
- Previous experience on EU framework programmes (FP7, H2020 etc.) will be considered a plus.
- Excellent communication (oral and written) and presentation skills in English.
- Excellent knowledge of social media platforms, MS Office and other web-based tools.
- Excellent organizational and time management skills.
- Graphic design (Adobe Suite, InDesign, or equivalent tools) and video editing skills will be considered an asset.
- Availability and willingness to travel abroad for project meetings.

Please send your CV and cover letter (max. 1 page) to recruitment@easn-tis.com by the 31st of October 2023. Please consider that only the selected CVs will be notified for further process and interview.
