

Project Manager

About the job

Pleiades Innovation Ecosystem, established in 2022, is a driving force behind the growth of the Greek innovation ecosystem. Comprising key players, including large companies, successful SMEs, startups, research centres, universities, associations, and end-user representatives, the Cluster is committed to advancing business, policy, research, and innovation to enhance digitization and competitiveness in Europe.

About the role:

As the **Project Manager** at the **Pleiades Innovation Ecosystem** in Patras, your role involves the technical management, coordination, participation, and engagement in research projects where Pleiades is either a participant or a leader, focusing on research activities, deliverables, and work package involvement. You will also contribute to and/or coordinate the editing of research proposals, as well as engaging in the research or commercial exploitation of the outcomes from research projects.

Key Activities

- Identifying, analyzing, standardizing, and prioritizing requirements and use cases needed for project implementation, related to our scope of activities.
- Developing and defining concepts, models, and algorithms required for project implementation, in line with our operational focus.
- Designing architecture and specifying the technical aspects of utilities, modules, components, subsystems, systems, and platforms needed for project implementation, based on our operational requirements.
- Defining the scope, operation, and execution of pilot use cases and demonstrators relevant to our activities.

Key Responsibilities

- Leading and organizing work packages, tasks, deliverables, and activities for which Pleiades is responsible.
- Editing, authoring, and delivering Pleiades' specific deliverables (while seeking technical input from partners and the Pleiades implementation team when necessary).
- Contributing to and assisting in the preparation of deliverables led by other partners (gathering technical input from the Pleiades implementation team as needed).
- Reporting technically to task leaders, WP leaders, coordinators, and the European Commission, as dictated by the management structure of each project.
- Attending all relevant technical, plenary, and review meetings and workshops, representing the Pleiades team and preparing presentations in collaboration with the implementation team, if necessary.

- Representing and participating on behalf of Pleiades (as needed and based on availability) at events, conferences, workshops, and exhibitions.

Benefits

- Flexible work schedules or remote work options to enhance work-life balance
- Positive and inclusive company culture that fosters collaboration, creativity, and a sense of belonging
- Professional development and training opportunities.
- Opportunity to collaborate with a leading company in the technology and innovation sector

Send your CV to operations@wearepleiades.com. Applicants who do not receive notification or interview within 6 weeks may consider their application unsuccessful. Personal data collected will be used for recruitment purposes only.
